2 [Text] Richard F. Haines, the well-known U.S. specialist from NASA, began public lectures yesterday in Chelyabinsk, which until recently was closed to foreigners. He acquainted his audience at a downtown lecture theater with the subject "Man and Space." The second topic on which Mr. Haines intends to speak in the Urals is equally fascinating -- "Technical Review and Testimonies on UFO's." This has aroused particular interest since a UFO was observed quite recently over Chelyabinsk. (endall) 5 may
